TITLE Geographic Origins of Students, Fall 1991. Volume II.

INSTITUTION State Univ. of New York, Albany. Central Staff Office of Institutional Research.

REPORT NO SUNY-OIR-2-92

PUB DATE Jul 92

NOTE 537p.; For volumes I and III, see HE 025 832 and HE 025 834.

PUB TYPE Reports - General (140) -- Statistical Data (110)

EDRS PRICE MF02/PC22 Plus Postage.

DESCRIPTORS College Students; Comparative Analysis; *Credit Courses; Data Collection; *Enrollment; Full Time Students; Graduate Study; Higher Education; Part Time Students; Place of Residence; *School Statistics; School Surveys; State Colleges; Tables (Data); Transfer Students; Undergraduate Study

IDENTIFIERS *State University of New York

ABSTRACT

This volume (second of three) contains statistical tables displaying origin or origin grouping of credit course students attending the State University of New York System. The volume contains six parts: Part 1 contains separate tables for each New York State county; Part 2 displays the permanent residence of students from outside of New York State broken out by standard geographic regions; Part 3 displays the percent distribution of all undergraduate credit course students in terms of institutional totals distributed across the four New York State Planning Regions and region totals distributed across institutions; Part IV displays the percent distribution of all graduate credit course students in terms of institutional totals distributed across the four New York State Planning Regions and region totals distributed across institutions; Part V contains the percent distribution of all first-time full-time undergraduate credit course students in terms of institutional totals distributed across the four New York State Planning and region totals distributed across institutions; and Part VI reports the percent distribution of transfer undergraduate students in terms of institutional totals distributed across the four New York State Planning Regions. INTRODUCTION

This report presents the results of the annual survey of the geographic origins, or permanent residence, of students attending institutions of the State University of New York during the Fall 1991 term. The report includes all credit course students and all institutions of the State University system. The current report is being published in three volumes. The first volume presents three distinct types of summaries which uses the individual institution (or institutional type) as the unit of analysis. The second volume is composed of reports which display credit course students by origin or origin grouping. The third volume displays enrollment trends.

The student and institutional data elements which enter into this report are as follows:

A. Student Data Elements

1. Student level (undergraduate/graduate)
2. Student load (full-time/part-time)
3. Student history (first-time/transfer)
4. Permanent residence (for New York State residents, county of residence; for other United States residents State or Territory of residence; and for non-resident aliens, country of origin)

B. Institutional Data Elements

1. County of location (for Community Colleges, Sponsorship area; for institutions located in Bronx, Queens, Kings, New York and Richmond counties, the New York City area)
2. New York State Planning Region
3. Contiguous Counties (county of location plus the New York State counties immediately surrounding the county of location)

VOLUME I

Volume I is divided into two parts:

- Part I - Summarizes the distribution of all credit course students by load, level and residency and includes various relative distance measures for New York State residents. Some of the origin concepts used in this report are campus specific (e.g., contiguous counties) and as a result the actual size of the area as measured in square miles or total resident population may fluctuate dramatically from campus to campus. Despite this inter-campus variability, the intent is to provide some measure of the enrollment impact of the "local" student population.

The second report in this section displays the origins of new (first-time and transfer) undergraduate students. The origin concepts parallel the preceding table. A detailed listing of the New York counties and regions used in both of these reports can be found in Appendix A.

- Part II - Displays each institution's enrollment by level, load, history and permanent residence. In addition, Part II contains various tables which summarize the total State University system as well as the institutions by type.

VOLUME II

Volume II is comprised of six parts.

- Part I - Contains separate tables for each New York State county.
- Part II - Displays the permanent residence of students from outside of New York State broken out by standard geographic regions. (i.e., Rest of US, Africa, etc.)
- Part III - Displays the percent distribution of all undergraduate credit course students in terms of institutional totals distributed across the four New York State Planning Regions and region totals distributed across institutions.
- Part IV - Displays the percent distribution of all graduate credit course students in terms of institutional totals distributed across the four New York State Planning Regions and region totals distributed across institutions.
- Part V - Contains the percent distribution of all first-time full-time undergraduate credit course students in terms of institutional totals distributed across the four New York State Planning Regions and region totals distributed across institutions.
- Part VI - Reports the percent distribution of transfer undergraduate students in terms of institutional totals distributed across the four New York State Planning Regions.

VOLUME III

- Part I - Contains a trend from 1959 through 1991. Data is provided by individual institution and institutional type regarding the percent of the institution's full-time students who come from the institution's area of location, who come from New York State but outside the area of the institution's location, who come from the United States but outside of New York State, and who come from a foreign country.
- Part II - Displays a seven year trend in the New York origins of full-time first-time students for each SUNY institution or institution type. Sub-totals are available for New York State, New York City, Long Island, and contiguous counties.
- Part III - Shows a seven year trend for full-time first-time students from each New York county, (along with Long Island, New York City and New York State totals) who enrolled at SUNY institutions.

Most surveys of the residences of college students suffer the problem of a valid definition of "residence". In this study, the respondents were asked to report "permanent" residence as distinct from "local" or "temporary" residence. As students grow older, marry, and participate in the community while attending an institution of higher education, there is an increasing tendency for the institution's records to begin to reflect the "local" residence in decisions regarding housing, tuition rates and the like. For example, the concept of "origin" for a student working on his third degree at as many colleges is not simply determined. It may be that the assumption of a single origin is a methodological flaw of all such surveys. However, the direction of bias caused by this problem can probably be stated as follows: somewhat more students have "origins" outside an institution's commuting distance than the data reflect. In order to collect uniform and consistent data, permanent residence was defined in accordance with a memorandum from the Counsel's Office on the "Establishment of Residence for Tuition Purposes".

The data included in this report provide the opportunity for all segments of the State University to obtain an accurate picture of the major areas they serve as shown by the geographic origins of their students. In view of expected changes in the pool of available students and resultant changes in enrollment patterns, the data in this report should provide an important instrument for institutional planning.

As is always the case, the significance of data depends on the network of interests, goals and priorities of the user of the data. Consequently, the data included in this report have been presented in a fashion designed to provide maximum flexibility, and hence utility, to a wide spectrum of users.

No study of this magnitude could have been conducted or completed without the extensive cooperation of many individuals. We would like to express our appreciation to those individuals on the campuses who are responsible for providing this office with data. Our gratitude is also extended to this office's statistical staff, Mr. Roy Spoor, Ms. Susan Wendover, who were responsible for editing and verifying the data; and our secretarial staff, Mrs. Claudia Fleming, Mrs. Vikki Mazzone and Ms. Julie Vincelette, who was responsible for the typing tasks associated with the report and arranging for proper distribution of the publication.

FOOTNOTES

^aOriginal constituent institutions of the State University of New York at its establishment in 1948.

^bDate of establishment as a state college or institution.

^cDate of incorporation into State University of New York.

^dAs of July 1, 1975, New York City Community College and the other community colleges (not shown here) sponsored by the New York City Board of Higher Education were no longer a part of the State University of New York.

NOTE: Dates preceding date indicated for establishment as a state college or institution refer to institutional antecedents of the present college or university. These may have been private institutions or controlled by a governmental entity other than the state. Intermediate institutional developments such as other college affiliation or date of first baccalaureate program offering have been omitted for the sake of brevity.

*The Health Sciences Centers at Buffalo and Stony Brook are shown separately here from their respective core campuses.
